## Aqua-Dyne Stimulus Package Section 179 Deduction

Take advantage of legal tax incentives to help lower your operating costs. The Section 179 Deduction is a tax incentive that is easy to use, and gives businesses an incentive to invest in themselves.

Equipment Cost	Total 2009 Tax Savings <sup>1</sup>
\$25,000.00	\$8,750.00
\$50,000.00	\$17,500.00
\$75,000.00	\$26,250.00
\$100,000.00	\$35,000.00
\$125,000.00	\$43,750.00
\$150,000.00	\$52,500.00

Savings based on 35% tax rate

For more information on Section 179 visit

## FEATURED PRODUCT

### KMT Aqua-Dyne Hydrostatic Testing Our EK Series pumps pass the TEST

The KMT Aqua-Dyne EK series is an excellent pump for applications that require high pressure at lower flow rates with a compact mobile design. Perfect for Hydrostatic Testing

- ✓ **Pump**  
Horizontal, valve-in-line triplex plungers with 1.57 in. (40 MM) stroke
- ✓ **Power transmission**  
Kevlar reinforced synchronous drive system with safety belt guide.
- ✓ **Discharge plumbing**  
Manifold with interchangeable high pressure discharge connections, stainless steel glycerin filled pressure gauge and relief valve or rupture disc.

- ✓ **Suction plumbing**  
Filtration down to 1 micron

The KMT Aqua-Dyne GA series pump is our most popular and versatile pump. Available in several models for industrial cleaning, surface preparation or Hydrostatic Testing applications.

- ✓ **Pump:**  
Horizontal, valve-in-line plungers
- ✓ **Power transmission**  
Kevlar reinforced synchronous drive system with safety belt guide.
- ✓ **Discharge plumbing**  
Discharge manifold with interchangeable high pressure discharge connections, stainless steel glycerin filled pressure gauge and relief valve or rupture disc.
- ✓ **Suction plumbing**  
Washable strainer and large capacity stainless steel bag type filter for up to 20,000 psi. 40,000 psi units equipped with 1 and 5 micron filters and charge pump.
